

DORRAJU NAVEEN RAJU

Data Analyst — SQL • Python • Power BI • Excel

naveenraju172@gmail.com — +91 9573993592 — LinkedIn — GitHub — Portfolio

PROFESSIONAL SUMMARY

Results-driven Data Analyst skilled in SQL, Python, Power BI, and exploratory data analysis with experience building interactive dashboards and automated reporting solutions. Worked on diverse real-world business datasets to identify trends, improve reporting accuracy, and generate KPI-driven insights for operational and strategic decision-making. Passionate about leveraging analytics and data storytelling to solve business problems and deliver actionable insights for business growth.

TECHNICAL SKILLS

Languages: SQL, Python

Tools & Platforms: Microsoft Excel, Power BI, Power Query, GitHub, Jupyter Notebook, VS Code

Python Libraries: Pandas, NumPy, Matplotlib

Database: SQL Server

Analytics Skills: Data Cleaning, Exploratory Data Analysis (EDA), Dashboard Design, KPI Reporting, Data Visualization, Business Intelligence, Data Storytelling, A/B Testing, Trend Analysis, Data Modeling, ETL, Stakeholder Reporting, Problem Solving

EXPERIENCE

Data Analytics Intern — Talent Shine India Pvt. Ltd.

June 2025 – July 2025

- Processed and analyzed business datasets using SQL and Python (Pandas) to improve reporting accuracy and operational insights.
- Automated reporting workflows using Excel and Power BI, reducing manual effort by approximately 30%.
- Built KPI dashboards and applied data validation techniques to support reliable business decision-making.

Power BI Intern — Saiket Systems

Jan 2026 – Feb 2026

- Analyzed 7,000+ telecom customer records using SQL and Power BI to identify churn behavior and retention trends.
- Developed interactive dashboards tracking churn rate, revenue trends, and customer segmentation KPIs.
- Cleaned and transformed datasets using Power Query to improve reporting consistency and analytical accuracy.

PROJECTS

Sales & Budget Performance Dashboard (Power BI, SQL, Excel)

Oct 2025 – Nov 2025

- Analyzed 18,000+ sales records to evaluate revenue trends, monthly performance, and budget variance.
- Designed a star schema data model with fact and dimension tables for scalable business reporting.
- Built interactive Power BI dashboards highlighting top products, customer segments, and revenue gaps.

Customer Behavior Analysis Dashboard (SQL, Python, Power BI)

Dec 2025 – Jan 2026

- Analyzed 3,900+ customer transaction records using SQL and Python to identify purchasing behavior patterns.
- Performed exploratory data analysis and feature engineering to uncover hidden customer insights.
- Developed interactive Power BI dashboards tracking revenue trends and customer engagement KPIs.

Call Center Performance Dashboard (Power BI, Excel)

Aug 2025 – Sept 2025

- Analyzed 2,500+ call center records to evaluate service quality, agent productivity, and operational performance.
- Built KPI dashboards monitoring call volume, customer satisfaction, and revenue-related metrics.
- Identified peak call hours and high-performing agents to support workforce optimization decisions.

EDUCATION

B.Tech — Artificial Intelligence & Data Science

2022 – 2026

DNR College of Engineering and Technology

CGPA: 7.54 / 10

CERTIFICATIONS

- Data Analytics with Python — NPTEL
- Data Analytics Job Simulation — Deloitte
- TATA GenAI Powered Data Analytics Simulation — Tata Group Forage
